Capital One Million Dollars

Richmond, Va.

tural implement makers are ordering steel bars, specifications on steel ralls are coming out freely, good orders are noted for locomotives and cars, structural and fabricated steel are quite active, and, in a word, the outlook for the second half of the year is considerably better than it was in January. Production of pig from in June aggregated 1,787,500 tons from May. Reduced outputs by merchant furnaces explain the decline, for steel plants increased their production, which fact corroborates reports of an improved steel trade.

Cotton goods are quiet, and much interest lies in that crop's progress, pending which operations are closely curtalled.

Business failures in the United States for the week ending July 6 were 180, against 227 last week, 182 in the like week of 1919, 182 in 1909, 246 in 1908, and 185 in 1997.

Business failures in Canada for the week anumbered 18.

Commonwealth Bank

Public Auction

Troy, N. Y., July 7.—The Troy Common Council last night adopted a resolution calling upon the congressional committee now investigating the United States Steel Corporation to bring before the Department of Justice the matter of the forced sale of the Breaker Island plant of the Steel Corporation opposite this city, its absorption by the steel trust and the closing of the works, throwing several thousand men out of employment and causing a loss of a million dellars or more annually to the merchants of this city.

The resolution charges that the trust refuses to sell the property or to use it for any purpose, and that the dismantling of the plant and the discontinuance of work is in restriction of trade and illegal. The plant was a large one and was conducted by the Troy Steel and Iron Works. Company, with a capital stock of \$2.500,000. It was purchased several years ago by the trust, which immediately closed the works.
